

Thought Technology is excited to launch two new Suites
Supported by Online Workshops

Register for an Online Course (\$250) and **SAVE 50%**
on the Purchase of any one of the 2 New Suites*

The New **EEG Suite** and **Physiology Suite** are a result of two years of extensive research of a team of dozens of clinicians & software specialists. To ensure that you take full advantage of the functions and features of the new suites, we encourage you to register for a Thought Technology Online Course.

Features of the EEG Suite:

- On-the-fly cut-off frequency adjustments
- Impedance detection and indicator
- Auto or manual threshold instruments with user-specified target percentage of time
- Single and dual-monitor display screens
- Real-time epoch statistics for instant trend graphing

Features of Physiology Suite:

- Skin-conductance driven relaxation script with audio induction track
- A full range of heart rate variability (HRV) training screens
- User-defined pre-labelled event-markers (hot key activated)
- Simple feedback screens with auto or manual thresholds
- Single and dual-monitor display screens
- Real-time epoch statistics for instant trend graphing

Benefits of Online Training:

- No travel expense, learn from the comfort of your home or office
- Qualified instructors specializing in Neurofeedback or Peripheral Biofeedback
- Limited number (max. 4) of participants providing a hands-on training experience.
- Adaptation of course lessons to your individual needs
- Extensive technical assistance throughout the course

Only \$250 for 6 hours, divided into four 1.5-hr lessons given twice a week for 2 weeks.

To Register Call Pauline McCallan at 1 800 361-3651 ext 135
